

EZLogix Rich Instruction Set

With optimized instruction sets whether it be simple ladder relay, boolean, move, bit logic instructions etc... or advanced math instructions for complex algorithm, the EZLogix Designer Pro has it all.

The Free EZLogix Designer Pro software has been designed to provide our customers a more flexible and easy to use PLC programming software. The EZLogix functions will continue to grow upon customer requests at no additional costs to upgrade.

- Relay/Boolean
- Compare
- Advanced Math
- Bit Logic
- Move
- Time, Counter, Drum
- Program Control
- String
- Communication
- Data Logging
- Datatype conversion
- Process alarms/ Faults
- Analog
- IIoT
